# Green Cleaning

## Floor Cleaner
- 2 cups warm water
- 1/4 cup biodegradable liquid soap or detergent
- 1/2 cup white vinegar or lemon juice

**Directions:** Combine the ingredients in a large plastic bucket. Use with a mop or sponge. Discard unused portion.

## All-Purpose Cleaner
- 2 cups hot water
- 1 tsp. biodegradable liquid soap or borax
- 1 tsp white vinegar or lemon juice (cuts grease)

**Directions:** Fill spray bottle with hot water. Add soap and vinegar or lemon juice. Shake bottle gently to dissolve ingredients.

## Glass Cleaner
- 1 cup water
- 1/8 cup vinegar

**Directions:** Fill bottle with both ingredients and shake for 30 seconds. Use on all types of glass surfaces, including mirrors.

## Tub and Tile Cleaner
- 1/2 cup baking soda
- Enough liquid soap to make a frosting-like consistency
- 5-10 drops essential oil

**Directions:** Place baking soda in a bowl and slowly pour in liquid soap, stirring constantly, until the mixture reaches the consistency of frosting. Add drops of essential oil (optional). Scrub surface with sponge and mixture, and rinse.

## Toilet Cleaner
- 1/4 cup baking soda
- 1 cup vinegar

**Directions:** Sprinkle baking soda into toilet basin followed by the vinegar. Allow mixture to sit for several minutes. Scrub with a brush and rinse with water. A mixture of borax (2 parts) and lemon juice (1 part) will also work.
